*Test and Measurement*

Power Supplies-AC/DC, Programmable, Rack & Bench Top, Electronic Loads, Custom Solutions

Humidity Generators and Humidity and Temperature precision measurement instruments

Optical Modulation Analyzers, Transmitters, Pulse Analyzers, Tunable and DFB Lasers, Attenuators and Power Meters, Polarization Controllers and Optical to Electrical Converters.

EIP®-brand of frequency counters brings the highest levels of capability and reliability to microwave and millimeter-wave measurements. With the broadest frequency ranges available, very high sensitivity, and 32-watt continuous input protection

Precision test and measurement instruments and standards for calibration and metrology, for solutions in hardware and software for electrical and RF measurements. Full range of Data Acquisition products and solu-

GPS Time & Frequency References, Distribution, Network Time Servers, and Rubidium Standards

*Telemetry, Radio Test Sets, Avionics Test Sets , VXI, PXI, PCI, LXI Instruments*

Cobham AvComm—global leader in avionics, communications and synthetic test, monitoring and control for commercial, government and military applications.

DSP-based technologies , modular, COTS, multifunction, programmable, benchtop Automated Test System (ATS) that supports a wide range of real-time RF and Microwave Stimulus, Test and Measurement (T&M) applications

Telemetry ground stations receivers and products supporting the Flight Test and Range tracking communities. PCI, PCIe, cPCI bus interfaces, Receiver/Combiners with LDPS data processing software that allows users to archive data and create their own real time displays.

Modular PXIe/LXI/VXI/VME High Density Matrix Switching, RF Switching , Distribution, Data Acquisition Chassis and Ruggedized Sys-
