Upgrade Your Calibration System Meatest Makes It Easy

Using Meatest Calibrators with MET/CAL is now made simple!!!

Are you ready to make the switch to smarter calibration?

Meatest now offers an exclusive package in collaboration with Cal Lab Solutions (CLS):
10 custom MET/CAL procedures for just $1,500 fully compatible with your Fluke MET/CAL environment and tailored to support your most critical Units Under Test (UUTs).

How It Works:

1. **Consultation** – Together with your team, we select the 10 DMM, O-Scope, or other procedures that matter most to your operations.

2. **Development** – CLS experts then supply precise, validated procedures for seamless integration.

3. **Integration** – Begin using your new Meatest hardware with confidence and efficiency.

What's Included:

Attached you'll find the official list of available procedures, developed by CLS and optimized for use with Meatest equipment. These procedures are selected from the most common UUTs in the field — trusted, field-tested, and ready for deployment.

Please ensure your customer's selection is made from this list. If a required procedure is not listed, simply contact Mike Schwartz at CLS before making any commitments to:

*   Confirm if development is possible

*   Clarify delivery time and any additional costs

📞 Mike Schwartz: +1 (303) 317-6670
sales@callabsolutions.com

By acting now, you help your customer reduce setup time, increase calibration consistency, and elevate lab performance — all while keeping full compatibility with MET/CAL.

Let's make your lab more efficient — together.
